

VRIS UPDATE

Referral Worksheet Effective 1-7-10 Number 246

SUMMARY OF UPDATES

As a result of a suggestion from the field, the Referral Worksheet has been updated to assist in obtaining initial information about an individual's lawful presence in the United States. L.B. 403 requires state agencies that provide a public benefit to do so only with individuals who are lawfully present in the United States. In addition, the VR agency only serves those individuals with a disability who are lawfully present in the United States and have been granted permission to permanently work in the United States.

Only individuals who indicate that they are in one of the four citizenship or immigration statuses listed on the worksheet should be scheduled for an orientation. Individuals other than those who are a U.S. Citizen should be reminded to bring their immigration card or document with them to their appointment.

VRIS POSTING

The Referral Worksheet is posted at VRIS: Materials: Case Service Forms and Worksheets:
[Referral Worksheet](#).

TEAM COMMUNICATION

Teams may use up their supply of the former version of the Referral Worksheet before printing a new supply of the revised Referral Worksheet.
